

SUPABEAD

INTELLIGENTLY DESIGNED, EXPERTLY INSTALLED

In partnership with Jablite, Miller Pattison are pleased to announce the launch of the first full-fill EPS Cavity Wall Insulation system backed by a comprehensive 10 year product and installation warranty.

EPS Bead is a cost effective and efficient alternative to PUR/PIR board for house builders, reducing capital outlay and on-site storage and increasing brick-laying efficiency.

**10 Year System
Warranty**

**Up to 60% saving
over partial fill
equivalent**

**Consistent
installed density**

**0.033
W/mK**

**High thermal
performance**

**Approved by
the BBA**

**Quick, easy
installation with
no waste**
